WORTH A LOOK

Take a closer look at products that are shaping our industry.

Q-10 Lip Therapy by Agera Labs has two unique layers: the inner layer, which contains a proprietary blend of moisturizers infused with CoQ10 enzyme, and the outer layer, which contains ceramides to prevent dehydration. Together, these powerful ingredients instantly hydrate, rejuvenate, and repair damaged lips and maintain a healthy, soft, supple texture. CoQ10 enzyme helps to produce energy and neutralize free radicals, while ceramides create a protective barrier to prevent dehydration. 877-656-5188 or ageralabs.com

Alera Skin's Zensa Topical Anaesthetic is an FDA- and Health Canada-approved product with 5% lidocaine that desensitizes the skin for painful procedures, including tattooing, laser hair removal, waxing, and injections. This product contains health-conscious ingredients, like purified water and vitamin E, which provide anti-inflammatory properties. Zensa Topical Anaesthetic is the most natural numbing cream on the market. 844-441-7546 or aleraskin.com

Bio France Lab's Rose Cooling Gel is a rinse-off mask that consists of a cooling gel that can be used on the face and eyes for its soothing and refreshing effects. This mask contains antioxidants and aloe vera and has a lovely floral scent from the rose essential oil. Rose Cooling Gel is perfect for use following chemical and physical exfoliation treatments. 323-846-5933 or biofrancelab.com

Pure Hydration by BiON is a serum form of hyaluronic acid that can carry as much as 1,000 times its weight in moisture. This serum works to expand the skin cells, drawing in moisture from the air and locking it in to hydrate the skin beneath the surface. It fills out sagging areas, reduces the appearance of wrinkles, and results in plumper, younger-looking skin. With no creams or oils, this serum is ideal for acneic skin. 877-715-2466 or bionresearch.com

10% Vitamin C Ampoules by Circ-Cell contain a breakthrough blend of antioxidants and biopeptides that reduces the appearance of fine lines and wrinkles and protects the skin from the visible effects of sun and environmental damage. This product contains vitamin E, which boosts antioxidant activity, three forms of vitamin C. It firms the skin and enhances elasticity with single-use capsules that allow for maximum potency. 307-733-4313 or circell.com

CelleClé's LumiBright C multi-fade & firm corrective complex is a serum that is fortified with NiaC™ Complex to gradually fade signs of discoloration and sun-induced aging while boosting firming fibers within the skin's structure. The most potent and stable form of vitamin C is blended with a cocktail of orange stem cells, vitamin B3, and Vital Cell® energizers for complete skin rejuvenation. With this serum, pores are refined, imperfections are reduced, and lines and wrinkles are diminished. 888-731-2525 or cellectleskincare.com

Depilève's Essential Oil Lavender Rosin is a delicate strip wax for clients with sensitive skin. This wax gently removes hair, leaving the skin feeling smooth and soft. Due to the antiseptic and soothing properties of the lavender essential oil, this wax helps to disinfect the skin and relieve discomfort. This all-purpose rosin is effective on the legs, bikini line, underarms, and face. 800-233-7453 or depileveusa.com
