7. Enzymatic peeling

Dermatude
321-332-6975
www.dermatude.com

Suitable for all skin types, Enzymatic peeling removes dead skin cells and stimulates circulation. Regular use can help improve skin texture, which results in a smooth, supple and radiant skin.

8. Glycolic Detox Charcoal Peel Level 3

Bioelements
800-433-6650
www.bioelements.com/pros

Glycolic Detox Charcoal Peel Level 3 benefits clients with thick and rough skin, deeper clogged pores, excessive milia and deep congestion, dullness, loss of firmness, aging and moderate hyperpigmentation.

9. MicroSmooth AHA | multi-acid resurfacing serum

CelleClé Skincare
888-731-2525
www.cellecleskincare.com

MicroSmooth AHA | multi-acid resurfacing serum releases a multi-acid blend to speed up cell renewal and smooth away and plump fine lines, while leaving a vibrant complexion.

10. Fruit Enzyme Scrub

BiON Research
877-715-2466
www.bionresearch.com

Fruit Enzyme Scrub is a yellow scrub for dry to normal skin types with a light pineapple aroma. It has a light exfoliation with three sizes of jojoba beads. The pineapple enzyme acts as a natural antibacterial agent. Skin conditioning ingredients help increase the water content.

11. Cranberry Enzyme Peel

A Natural Difference
888-568-3150
www.anaturaldifference.com

Cranberry Enzyme Peel will not only help exfoliate skin, but also increase capillary function. Additionally, the high antioxidant content helps repair stress and age related degeneration.

12. Perfecting TCA Peel

Dermodality
800-533-0405
www.dermodality.com

Formulated to clear the skin of bacteria, the Perfecting TCA Peel is an exfoliating treatment to brighten the skin. This product controls potential breakouts, hyperpigmentation, fine lines and wrinkles.

To read more about exfoliation on both the face and body, turn to pages 34 and 48.
