## WORTH A LOOK

**LumiBright C** by CelleClé Skincare is a sophisticated serum that carefully blends the most potent and stable form of vitamin C with a cocktail of orange stem cells, vitamin B3, and vital cell energizers for a complete skin rejuvenation. This multi-fade and firm corrective complex gradually fades multiple signs of discoloration and sun-induced aging while boosting firming fibers within the skin's structure. 888-731-2525 or [cellecle-skincare.com](http://cellecle-skincare.com)

**Celluma PRO** by BioPhotas is a hands-free, stand-free LED panel which is FDA-cleared to treat acne, wrinkles, and pain. Celluma PRO can be used clinically as a powerful stand-alone modality or as a treatment enhancing add-on. Celluma PRO is CE Certified in the European Union for dermal wound healing and is ideal for use following ablative procedures including: laser, microdermabrasion, microneedling, peels, and injections. 714-838-1956 or [biophotas.com](http://biophotas.com)

**Lids By Design** by Contours Rx works instantly to redesign and reshape eyelids – lifting and correcting to take years off the user's appearance. Erase the signs of aging! These medical grade, latex free strips are easy to apply with results that can be seen! 800-701-4269 or [contoursrx.com](http://contoursrx.com)

**The Sophy Device** by Dectro International is a true gem. The Sophy Diamond-tipped microdermabrasion device combines high-performance technology with portability in one compact, versatile system. A true innovation, Sophy incorporates three treatment settings – vaporization, vacuum, and exfoliation – that offers efficient and personalized care. Sophy can be used on both the face and body to visibly reduce the appearance of pigment spots and sun-induced damage, dilated pores, signs of aging, scars, and stretch marks. 800-463-5566 or [dectro.com/en](http://dectro.com/en)

Dermaculture's **Granular Scrub** is their number one product for 80 years! This exfoliator is nothing like the average scrub. With its unique mud-like texture, many even leave it on as a mask. A generous concentrate of almond and barley meal granules gently buff the skin while honey clarifies, softens, and smoothes the textural appearance. Citric acid is a naturally-derived exfoliating agent that also preserves the skin's precious pH balance for a homogenous remedy for rough skin and large or congested pores. It will leave skin feeling smooth and supple! 800-322-3523 or [dermaculture.com](http://dermaculture.com)

**Oxygen Treatment System** by Echo<sub>2</sub>Plus® infuses mature skin with the healing power of oxygen at the cellular level. Combining real oxygen

with 87 different vitamins, minerals, enzymes and amino acids to regenerate collagen and elastin, the ECHO<sub>2</sub>Plus Oxygen Treatment System is an effective oxygen facial which can be performed by professionals at fine salons, spas, and physician skin care

offices worldwide. 800-592-3246 or [echo2plus.com](http://echo2plus.com)

d'vine® Skin Care's **Wine Jessner®** peel combines the d'vine wine essence with resorcinol, salicylic acid, and L-lactic acid to provide a very noticeable and effective exfoliation. Results are generally visible after only one treatment. The Jessner peel process usually requires one full week from application to completion and is great for those who are acne prone, have sun damage; fine, deep lines; hyperpigmentation; or an uneven skin tone. 866-503-8463 or [dvinestockcare.com](http://dvinestockcare.com)
